Education

University of Punjab
B.S. IN COMPUTER SCIENCE
Lahore, Pakistan
2018 - 2021
- For my final year project, I completed an art gallery project.

Projects

CityBook
TECH STACK: REACT, REACT NATIVE, NODEJS, EXPRESSJS, MYSQL
citybook.pk
Web & Mobile App
- Designed and coded Citybook's scalable and secure back-end functionality.
- Developed the mobile app for Citybook with an intuitive user experience and optimal performance.
- Managed the Citybook project team, completing the project on time and within budget, and deployed the application to a live environment.

List Networks
TECH STACK: CODEIGNITER 4, MYSQL, JQUERY
listnetworks.com
Web App
- Developed a full-stack web application from start to finish, including designing the user interface, implementing backend functionality, and optimizing database performance.
- Deployed the web application to a live server, ensuring it was secure, scalable, and able to handle high traffic volumes.
- Continuously monitored and improved the web application's performance, incorporating user feedback and market trends to enhance functionality and user experience.

My Auction Sheet

myauctionsheet.com

TECH STACK: REACT, NODEJS, EXPRESSJS, MYSQL

Web App

- Designed and coded My Auction Sheet's scalable and secure back-end functionality.
- Integrated Various APIs (Google, Facebook) and Payment Methods such as Stripe, PayPal, and PayPak to ensure a smooth checkout flow.

AutoDeals.pk

autodeals.pk

TECH STACK: PHP, REACT, NODEJS, EXPRESSJS, MYSQL

Web App

- Maintained and optimized the backend and database of the platform.
- Communicated with clients effectively and worked with the development team to ensure client requirements were implemented correctly.
- Managed the autodeals.pk team and conducted code reviews to maintain code quality and best practices.

inPKR

inpkr.com

TECH STACK: PHP, JAVASCRIPT, MYSQL

Web App

- Developed the web application from scratch to finish, implementing backend functionality, and optimizing database performance.
- Designed & coded Github Actions & Tests for Continuous Integration and Continuous Development.

Contributions & Packages

jazzcash-checkout Node.js package that provides easy integration of JazzCash payment gateway.

mysql-rcm Node.js package that helps create REST API endpoints for a MySQL database using express and mysql2.

sitemap-generator A XML Sitemap generator to design dynamic sitemap for your website built using PHP.
